The world's first PEMF integrated technology
全球首創PEMF INTEGRATED技術

主設備——新養儀

Main equipment-healthcare
equipment

1MHz high-frequency pulse current

1MHz（兆赫茲）高頻脈衝電流

作用於人體組織時，產生內熱效應，交變脈衝電流
通過設備時，產生脈衝電磁場作用於人體。

TeraHertz wave doubles energy

太赫茲光波加持，能量加倍

新養儀同步釋放波長為3~3000微米的太赫茲光波，
能夠直達人體肌膚3-5釐米深處，與人體細胞同頻
共振，從而啟動細胞能量，促進血液回圈。

脈衝電磁場療法 (PEMF)

Pulse electromagnetic field therapy (PEMF)

PEMF——航太科技

1969年美國宇航局 (NASA) 為宇航員恢復身體健康，研究出一種能降低骨質流失和肌肉萎縮的治療方法。

PEMF——Aerospace science and technology

In 1969, National Aeronautics and Space Administration (NASA) Recovered health of astronauts, including therapeutic results studied for reducing bone loss and muscular dystrophy.

脈衝電磁場療法 (PEMF) Pulse electromagnetic field therapy (PEMF)

PEMF促進組織創傷的修復和再生

PEMF promotes repair and regeneration of damaged tissues

PEMF治療骨質疏鬆症

PEMF cures osteoporosis

PEMF治療神經系統疾病（腦中風、帕金森等）

PEMF cures nervous system diseases (cerebral apoplexy and Parkinson, etc.)

PEMF對眼部疾病的治療（修復眼組織損傷）

PEMF cures eye diseases (Repair eye tissue damage)

PEMF治療骨關節炎

PEMF cures osteoarthritis

PEMF修復骨缺損（促進骨細胞再生與整合）

PEMF repairs bone loss (promotes regeneration and integration of bone cells)

PEMF治療脫髮（促進毛囊細胞再生）

PEMF cures alopecias (promotes follicular cell regeneration)

PEMF治療糖尿病及其併發症

PEMF cures diabetic complications

PEMF改善微循環（擴張微小動脈）

PEMF improves microcirculation (enlarges micro and small arteries)

PEMF促進血管再生

PEMF promotes revascularization

PEMF治療和預防心腦血管疾病

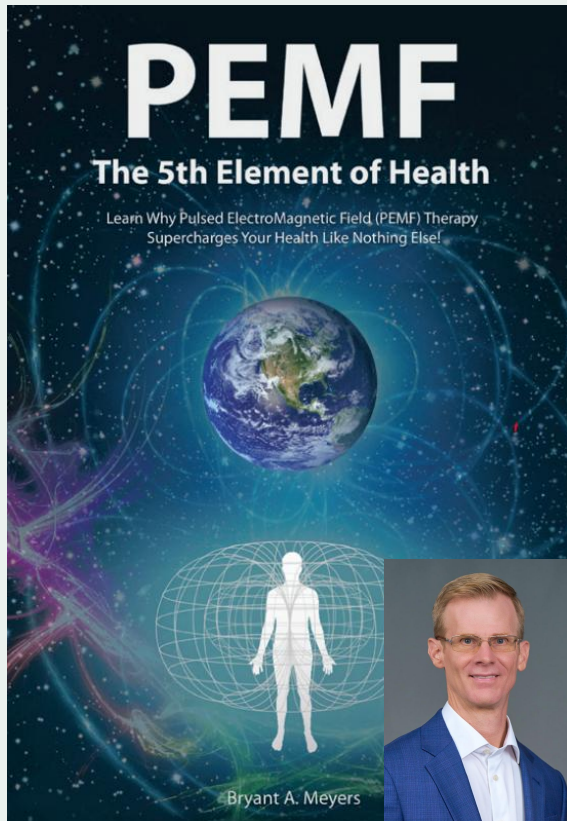

PEMF prevents and cures cardiovascular and cerebrovascular diseases

PEMF促進癌細胞失活和壞死

PEMF promotes cancer cell inactivity and necrosis

PEMF—健康的第5元素

PEMF—The 5th Element of Health

Newtonian-based physics and biology are left speechless attempting to explain this complexity. This amazing intelligence residing in the body knows how to heal itself; it only requires the essential elements food, water, sunlight, oxygen as well as sleep, exercise and the earth's PEMFs.

Through circulation, electric and magnetic currents and intelligent communication, these essential elements are delivered to each of our 100 trillion cells. At an energetic level, our cells act as battery-driven miniature pumps, which require food for fuel, oxygen for combustion; and an ignition, spark or catalyst to drive the process. This spark is enhanced by the earth's

113

Institutes of Health have made PEMF therapy a priority for research. In fact, the FDA has already approved many PEMF devices, some specifically to fuse broken bones, wound healing, pain and tissue swelling, and also to treat depression. Most therapeutic PEMF devices are considered safe by various standards and organizations.

Just to be clear, PEMF therapy or any energy medicine device for that matter does not heal or cure disease. What it's really doing is jump-starting our body's own natural healing process. The body is self-healing, self-regulating and self-regenerating. It has the natural ability to heal when given the proper energy and elements needed for sustaining life (more on the five essential elements in the next chapter).

我們的細胞就像電池驅動的微型泵，需要食物作為燃料，氧氣用於燃燒，以及點火器、火花來推動燃燒過程。這個點火器就是PEMF。

PEMF 療法不能治癒疾病，它的真正作用是啟動人體自身的自然癒合過程。人體具有自我修復、自我調節和自我再生的能力，只要獲得維持生命所需的適當能量和元素，身體就有自然痊癒的能力。

美國學者Bryant Meyers著作《PEMF是健康的第五元素》

脈衝電磁場療法 (PEMF) 的作用

Effect of PEMF

細胞的“充電器”

"Charger" of cells

代謝的“加速器”

"Accelerator" of metabolism

迴圈的“疏通劑”

"Unclogger" of circulation

衰老的“減速器”

"Decelerator" of aging

骨頭的“修復師”

"Repairer" of bone

疼痛的“撫慰劑”

"Soother" of pain

炎症的“滅火器”

"Extinguisher" of inflammation

夜晚的“催眠劑”

"Hypnotic agent" of night

身體整體健康的“守護神”

"Guardian" of overall health

太赫茲波——改變未來世界的十大技術

Terahertz wave - ten technologies that will change the future world

正常細胞

Normal cell

太赫茲波

TeraHertz wave

生熱性

與人體細胞同頻共振生熱

Heat build-up

Resonate with body molecules to produce heat

強穿透性

可穿透肌膚3-5cm

Penetrability

Penetrate the skin of the body by 3-5cm

安全性

是太陽輻射的1/40

Safety

It is 1/40 of solar radiation

P90+ 產品特點

1

超大尺寸 適配更廣

- 單邊踏板尺寸 31.31X14.1釐米，踏板可滿足所有人群使用（亞洲、歐美、非洲人群均適用，最大可以滿足**47碼**人群）

2

廣域強度調節 精准紅外遙控

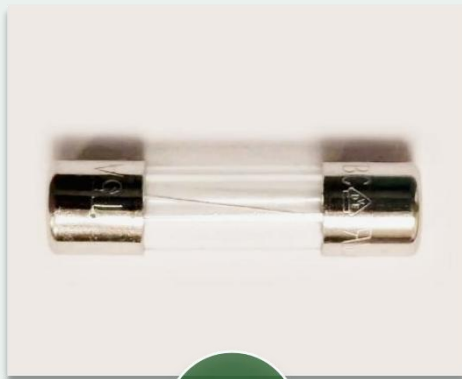

- **20個檔位**，強度調節範圍廣，隨心設置，滿足更多需求
- **無線操作**更方便，定向定點避免干擾其他設備

3

智慧匹配 打破限制

- **適配多種電壓：**100v ~ 130v 220~240v
- **不同播報語種：**中文 & 英文

4

雙保險設計 安全有保障

- **保險管安裝裝置**，用電安全有保障，T5A 250V保險絲裝置，當電流過大時，保險絲自動斷開，保護儀器，更保障使用安全

顏初凝時儀
優養舒解儀

5

1+2 滿足不同需求

- **一臺機器，三種用途，7種技術**，可同時滿足多人同享，體驗多種先進技術

P90+product feature

1

Supersize Wider scope of application

- Size of single pedal: 31.31X14.1cm, the pedal is applicable to everyone (**Asian, European, American and African** with a shoe size up to 47)

2

Wide intensity regulation range Accurate infrared remote control

- 20 gears, wide intensity regulation range and wide setting range can satisfy various needs
- Wired operation enables to avoid disturbing other equipment in fixed direction and point

3

Smart matching Breakthrough

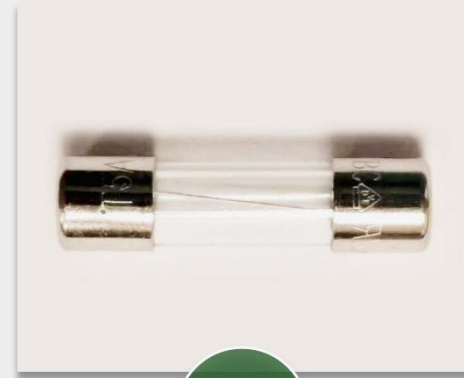

- **Applicable voltage:** 100V- 130V 220-240V
- **Language:** Chinese & English

4

Dual safety design Safety assurance

- **The fuse protection device ensures electrical safety.** T5A 250V fuse will be turned off automatically when the current is too high to protect the instrument and ensure the user's safety

Beauty
instrument
Comfort
instrument

5

1+2 Satisfy various needs

- **One machine with three purposes and 7 technologies** enable different users to experience various advanced technologies simultaneously

顏初凝時儀 (美容儀)

Beauty instrument

提升面部輪廓

Lift facial profile

緊致皮膚

Tighten the skin

增加皮膚彈性

Enhance skin elasticity

改善皺紋

Improve wrinkles

促進膠原蛋白生成

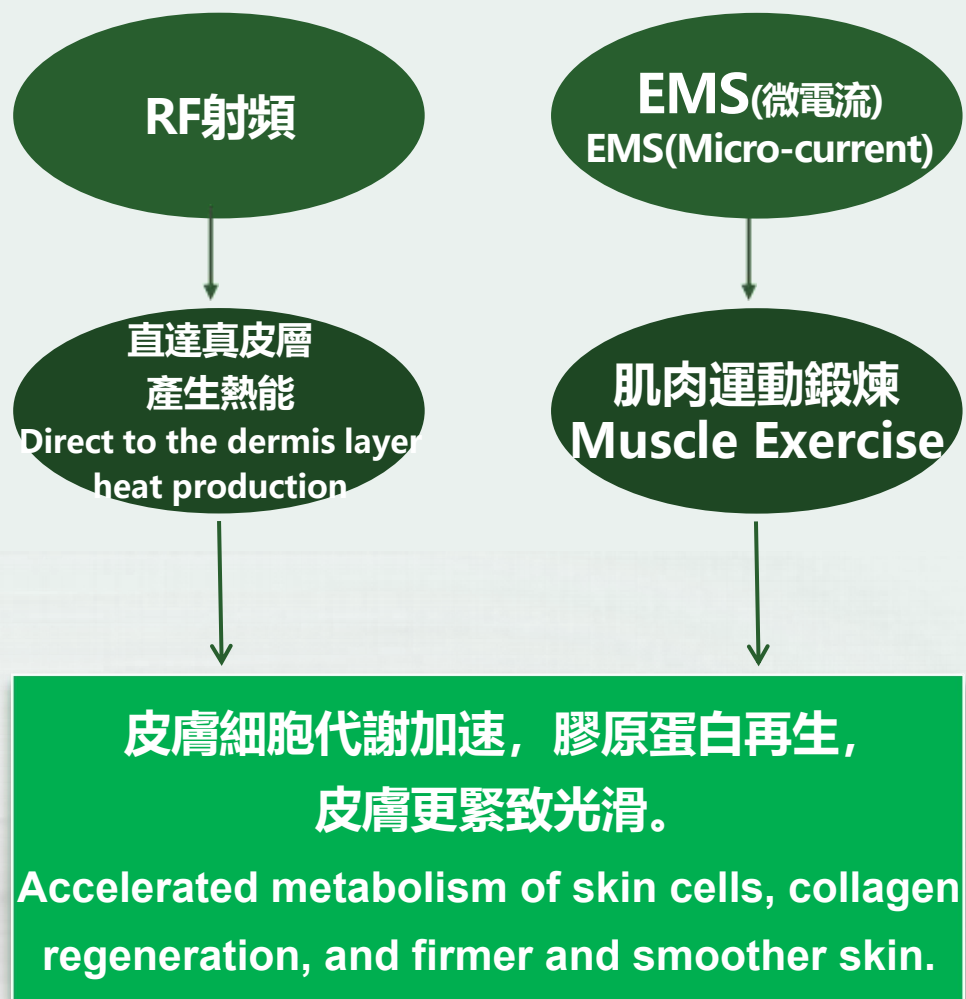

Promote collagen generation

改善疤痕和色素沉著

Improve scar and chromatosis

RF&EMS

使用手法

Usage method

面部肌肉線條參考與提拉走向圖參考
以1-2cm/s的速度移動
每條線重複5-6遍

Reference of facial muscle lines and lifting direction
Movement speed of 1-2cm/s
5-6 times for each line

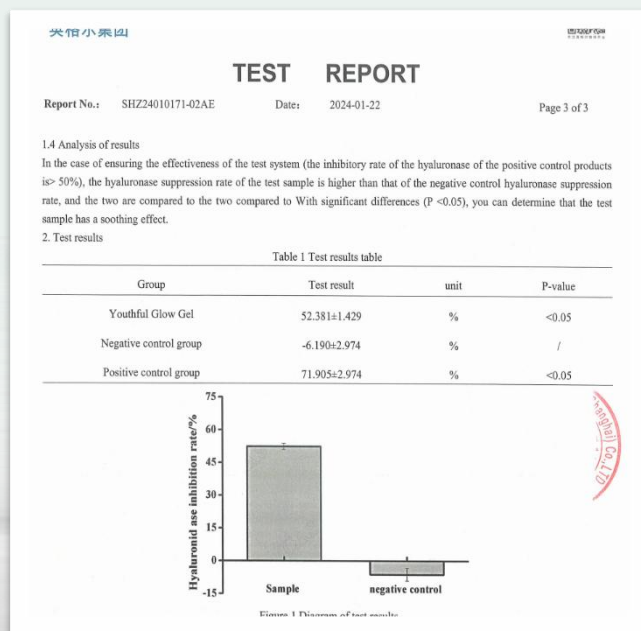

- ① 下顎至耳下：法令紋、下巴紋
 - ② 嘴角至耳中：法令紋、口角紋、面部鬆弛
 - ③ 鼻基底至耳上：法令紋、印第安紋、魚尾紋
 - ④ 印堂至太陽穴：眉間紋、抬頭紋
 - ⑤ 印堂至太陽穴（螺旋移動）：抬頭紋
 - ⑥ 頸部上下移動：頸紋
- ① From the lower jaw to the lower part of ears: nasolabial folds, mental crease
- ② From corners of the mouth to middle of ears: nasolabial folds, mouth frown
- ③ From the nasal base to the upper part of ears: nasolabial folds, crow's feet
- ④ From ophryon to temple: frown lines, forehead wrinkles
- ⑤ From ophryon to temple (move rotarily): forehead wrinkles
- ⑥ Move up and down on the neck: neck lines

配套凝膠，功效更突出！

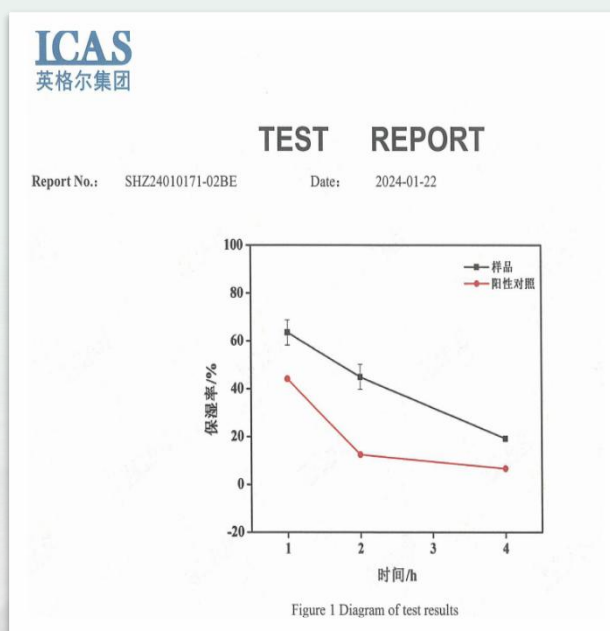

三大專利：抗衰 抗敏 抗乾燥；專業檢測機構出具報告。

Gel improves the skincare effect!

Three patents: Anti-aging, anti-allergy, ant-dryness; professional test organization issues the test report.

舒緩性能報告-測試結果圖

保濕性能報告-測試結果圖

顏初凝時凝膠

- 1.八種**玻尿酸**，立體儲水，讓肌膚更水潤Q彈。
- 2.添加**三型膠原和水解膠原**，**玻色因**等抗衰抗皺成分，有很好的協同抗衰功效。
- 3.添加多重**植物草本成分**，抗敏舒緩，改善由於炎症等導致的衰老。
- 4.即時提拉緊致，改善肌膚彈性，淡化細紋。
- 5.搭配儀器使用效果更佳，有很好的潤滑導電能力，同時釋放多重抗衰營養組分，滲透更深，達到更好的抗衰效果。

溫馨提醒 Friendly reminder

以下人群禁用或謹慎使用：

1. 因骨折或整形，面部接受過金屬、矽膠、塑膠等植入的人士；
2. 面部有神經損傷的人士；
3. 正在進行牙科治療的人士；
4. 接受過眼部或頭部手術的人；
5. 面部正在過敏、損傷（如曬傷）或炎症人士；
6. 孕婦，14歲以下少年兒童。

The following individuals are prohibited or advised to use with caution:

1. Individuals who have undergone metal, silicone, plastic or other implants on their face due to fractures or plastic surgery;
2. Individuals with facial nerve damage;
3. Individuals undergoing dental treatment;
4. People who have undergone eye or head surgery;
5. Individuals with facial allergies, injuries (such as sunburn), or inflammation;
6. Pregnant women, children under 14 years old.

溫馨提醒 Friendly reminder

使用注意事項：

- 1.請在卸妝或素顏狀態下使用；
- 2.首次使用請在手臂內側肌膚做過敏測試；
- 3.首次使用請從低檔位開始；
- 4.使用時請摘下首飾（如耳環、項鍊等）；
- 5.使用時請避開嘴唇、鼻子、眼球、眼瞼、耳朵等部位。

Precautions for use:

1. Please use it while removing makeup or using it without makeup;
2. For first-time use, please conduct an allergy test on the inner skin of the arm;
3. Please start from a low gear when using it for the first time;
4. Please remove jewelry (such as earrings, necklaces, etc.) when using;
5. When using, please avoid the lips, nose, eyeballs, eyelids, ears, and other parts.

優養舒解儀（按摩儀）

Comfort instrument

舒緩
肌肉

Sooth
the
muscle

促進血
液迴圈

Promote
blood
circulation

沉浸式
按摩

Immersive
massage

緩解
疲勞

Relieve
fatigue

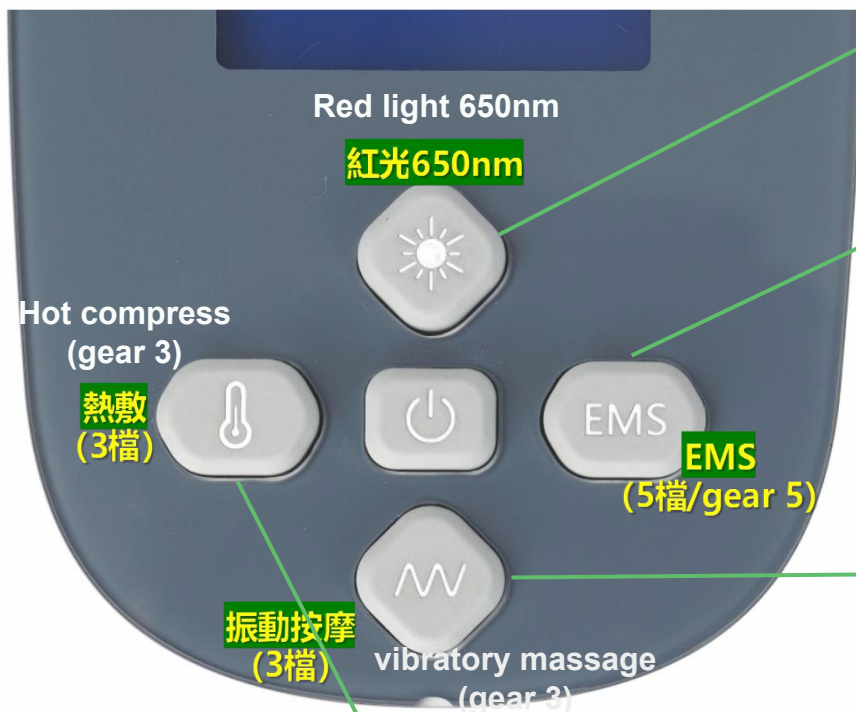

緩解
頭痛

Relieve
headache

改善頭
皮健康

Improve
scalp
health

功能按鍵自由搭配使用，預設倒計時20分鐘/次

Function buttons can be freely combined and used, with a preset countdown of 20 minutes per use

緩解炎症和疼痛，啟動毛囊細胞
Relieve inflammation and pain,
activate hair follicle cells

增加肌肉力量，緩解肌肉疼痛
Increase muscle strength and
relieve muscle pain

緩解肌肉緊張和疲勞，促進血液迴圈
Relieve muscle tension and fatigue,
promote blood circulation

緩解肌肉緊張和痙攣，改善微循環
Relieve muscle tension and spasms,
improve microcirculation

3種手法

推

模擬指推法

爪頭緊貼疼痛部位，運用適當的壓力，進行單方向直線移動。

適用於肌肉酸痛，頭痛，腰膝酸軟，肢體麻木，血脈淤堵等情況。

按

模擬指按法

爪頭按壓一定的部位或穴位，逐漸用力深壓，停留片刻數秒。

適用於局部肌肉腫脹和疼痛，關節疼痛和炎症，作用於深層次。

揉

模擬指揉法

爪頭附著於一定的部位或穴位，做輕柔緩和的環旋揉動。

適用於局部肌肉腫脹和疼痛，關節疼痛和炎症，作用於淺層次。

* 三種手法源於傳統中醫的推拿按摩手法。

* 按法與揉法可結合一起使用，效果更佳。

3 techniques

Push

Simulated pushing method

Keep the claw head close to the pain site, and conduct **unidirectional linear movement** using a proper force.

Applicable to muscular soreness, headache, soreness and weakness of waist and knees, numbness of limb and blood clogging, etc.

Press

Simulated pressing method

Press a part or an acupuncture point using the claw head, gradually **increase the force, and stay for several seconds.**

Applicable to **partial** muscle swelling and pain, arthralgia and inflammation **at a deep level.**

Massage

Simulated massage method

Keep the claw head attached to a part or an acupuncture point and **massage gently and rotarily.**

Applicable to **partial** muscle swelling and pain, arthralgia and inflammation **at a shallow level.**

* Three methods are originated from traditional TCM massage technique.

* Pressing method and massage method can be adopted cooperatively to achieve a better effect.

Gel improves the skincare effect!

配套凝膠，功效更突出！

TEST REPORT

Report No.: SHZ24010171-01E

Date: 2024-01-22

Page 3 of 3

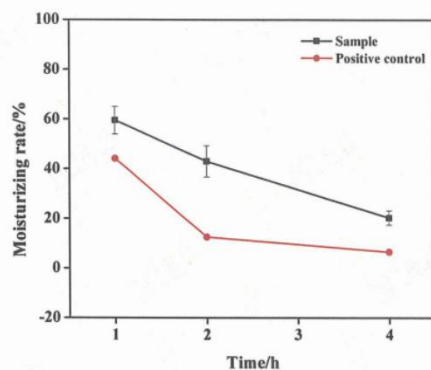

Figure 1 Diagram of test results

保濕性能報告-測試結果圖

Moisture retention performance report-test effect picture

優養舒解凝膠

添加三七，紅花，當歸，川穹，樟腦，冰片，薄荷，薑根，艾草油，冬青油等成分。

- 1.促進迴圈，活血化瘀，舒筋活絡。
- 2.緩解肌肉疼痛，散結化瘀。
- 3.改善富貴包，肩頸酸軟。
- 4.疏通肩頸淋巴，排毒，排濕，排寒。

**圓頭設計，貼合人體皮膚，
無菱角不適感**

**多部位使用：頭部、肩、頸、
腰、四肢、背部等**

**The round head is suitable for
human skin and free of corner and
discomfort.**

**Applicable to many parts: head,
shoulders, neck, waist, arms and
legs, back.**

溫馨提醒 Friendly reminder

- 1.請勿在佩戴有心髒起搏器、金屬人造器官的輔助器械處使用；
- 2.請勿在靠近有金屬植入物的部位使用；
- 3.請勿在皮膚有傷口、炎症或過敏的部位使用；
- 4.首次使用請從低檔位開始；
- 5.使用時切勿用力按壓，否則傳導頭易斷裂；
- 6.紅光模式下，請勿直接對著眼睛；
- 7.孕婦及14歲以下少年兒童不建議使用。

1. Do not use assistive devices with pacemakers or metal artificial organs;
2. Do not use near areas with metal implants;
3. Do not use on areas with wounds, inflammation, or allergies on the skin;
4. Please start from a low gear when using it for the first time;
5. Do not press hard during use, otherwise the conductive head is prone to breakage;
6. In red light mode, do not directly face your eyes;
7. Pregnant women and children under 14 years old are not recommended to use it.
